|  |
| How are new employees oriented? How and to what degree are new employees made aware of ethical and behavioral standards?   |
|  |
|  |
|  |
| Has management made conservative decisions with regard to:  Accounting policies? Yes No  Accounting estimates? Yes No  |
| Given the size of the entity and its budget, has management attempted to hire the most competent persons for accounting and administrative positions? Yes No   |
| Does management provide (or offer) employees with the necessary training (on matters such as accounting or compliance with laws and regulations) to perform in a competent manner?  Yes No   |
| Are employees' performances evaluated on a regular basis? Yes No   |
| When necessary, does management apply appropriate discipline for inappropriate actions or behavior? Yes No   |
| To the extent possible, has management attempted to adequately segregate incompatible duties and responsibilities? Yes No  |
| Where the number of employees does not allow adequate segregation of duties, have compensating controls (such as those controls performed by those charged with governance or other outside parties) been considered and implemented? Yes No |
| Conclusion   |
| Given the size and complexity of the entity, are the controls related to the control environment:  |
| Suitably designed? Yes No In place (were they observed)? Yes No  |

#### The entity's risk assessment process

| In general, are activities by manageme keep them informed about risks to the objectives? [Refer to the activities doc business risks" above.] | operating, finance  | cial report  | ing and co  | ompliance     | ed |
|---|---------------------|--------------|-------------|---------------|----|
| Has management demonstrated the ab  | ility to respond to | and man      | nage identi | ified risks?  |    |

#### **Control activities**

Based on your understanding of the entity and its environment, including controls, thus far, identify the **significant audit areas** and the reasons why those areas are significant. An audit area may be significant because of:

- 1. The volume of transactions processed
- 2. The dollar amounts of the transactions or balances (relative to other items in the financial statements)
- 3. An identified fraud risk
- 4. An identified other (error) misstatement risk.

| <u>Audit area</u>                         | Significant audit area? (Yes or No) | Reason(s) (# from above) |
|---|-------------------------------------|--------------------------|
| Cash (receipts and disbursements)         |                                     |                          |
| Investments                               |                                     |                          |
| Receivables and revenues                  |                                     |                          |
| Inventories                               |                                     |                          |
| Fixed assets and accumulated depreciation |                                     |                          |
| Other assets                              |                                     |                          |
| Accounts payable and related              |                                     |                          |
| expenses/expenditures                     |                                     |                          |
| Other current liabilities                 |                                     |                          |
| Long-term debt                            |                                     |                          |
| Equity                                    |                                     |                          |
| Cost of revenues                          |                                     |                          |
| Payroll                                   |                                     |                          |
| Taxes and related assets/liabilities      |                                     |                          |
| Other expenses                            |                                     |                          |
| Laws and regulations                      |                                     |                          |
| Other (describe)                          |                                     |                          |

For each area that is identified as a significant audit area, in the pages that follow, document your understanding of the:

- Flow of transactions from their inception to their inclusion in the financial statements<sup>2</sup>, and
- The control activities that are designed to prevent or detect and correct misstatements that may occur.

<sup>&</sup>lt;sup>1</sup> If the understanding is contained in previous documentation, it may be attached or simply referenced. <sup>2</sup> This information may be in narrative, flowchart or walkthrough.

#### NARRATIVE DOCUMENTING THE FLOW OF TRANSACTIONS

| AUDIT AREA  |
|---|
| Describe how and by whom transactions are initiated:  |
|   |
|   |
|   |
| Describe the documents that are created in the process:                                     |
|   |
|   |
| Describe any subsidiary records that are affected by the process:                           |
|   |
|   |
| Identify the general ledger accounts that are affected:                                     |
|   |
|   |
| Describe how the transactions are ultimately included in the entity's financial statements: |
|   |
|   |

#### Control activities – cash receipts and disbursements

#### **General fraud controls**

| Control policy or procedure – Does management -   | Yes | No |
|---|-----|----|
| <b>Control the mail?</b> In small entities, the owner or management should either         |     |    |
| personally pick up the mail, or have the mail picked up by an employee who                |     |    |
| has no responsibilities related to the handling or recording of deposits,                 |     |    |
| accounts receivable records or revenues. All remittances should be directed to            |     |    |
| a post office box. Limiting access to the entity's mail is essential in preventing        |     |    |
| the unauthorized negotiation of cash receipts.  |     |    |
| Control the bank statements? Similarly, the owner/management should                       |     |    |
| personally pick up the entity's bank statements directly from the bank, or have           |     |    |
| them picked up by an employee who has no related responsibilities and                     |     |    |
| delivered to the owner/manager unopened. Owner/management should review                   |     |    |
| the contents of the statements before they are reconciled. Specific items that            |     |    |
| management should be alert to and investigate include:                                    |     |    |
| Missing checks  |     |    |
| Checks issued out of sequence   |     |    |
| Unknown payees  |     |    |
| Checks that appear to have been altered   |     |    |
| Checks that appear to have been afford     Checks not signed by authorized signatories    |     |    |
| Other unusual items   |     |    |
| Office unusual items  |     |    |
| Control the accounts receivable? Owner/management should limit access to                  |     |    |
| accounts receivable records, and in particular, the ability to issue credit               |     |    |
| memoranda, discounts and refunds. Accounts receivable detail ledgers should               |     |    |
| be balanced with the control account at regular intervals and any differences             |     |    |
| should be investigated promptly. Only owner/management should be                          |     |    |
| authorized to charge off accounts deemed uncollectible. Any discrepancies                 |     |    |
| reported by customers should be investigated promptly. Aged accounts should               |     |    |
| be reviewed monthly and past due accounts investigated.                                   |     |    |
| Control the inventory? Owner/management should carefully monitor gross                    |     |    |
| profit, and investigate any unexpected variances. Access to inventories should            |     |    |
| be limited as much as possible, and the use of surveillance equipment may                 |     |    |
| deter inventory theft. If a perpetual inventory is used, periodic counts should be        |     |    |
| performed at regular intervals for comparison with the perpetual records.                 |     |    |
| Control the accounts payable? Establish and monitor approved vendor lists.                |     |    |
| Owner/management should periodically review the list of approved vendors, being alert to: |     |    |
| being alert to:   |     |    |
| Unknown vendors   |     |    |
| Vendors with names similar to other known vendors   |     |    |
| Vendors with no physical address or telephone number                                      |     |    |
| Vendors whose addresses match employee addresses  |     |    |
|   |     |    |
| Limit the number of authorized check signers? If possible, only the                       |     |    |
| owner/manager should be authorized to sign checks. If not possible, consider              |     |    |
| requiring two signatures on checks, at least those over a specified amount. The           |     |    |
| use of facsimile signatures should be avoided if at all possible. <u>Never</u> sign       |     |    |
| checks in blank. Review supporting documentation when checks are signed                   |     |    |
| and investigate any discrepancies.  |     |    |

| Control policy or procedure – Does management -   | Yes | No |
|---|-----|----|
| Account for sequences? Whether it is checks, invoices, credit memoranda,                |     |    |
| receiving reports, shipping documents, or other prenumbered items, all                  |     |    |
| sequences should be accounted for. Voided documents should be defaced to                |     |    |
| prevent unauthorized use and retained to complete sequences.                            |     |    |
| Control general journal entries? Owner/management should either make or                 |     |    |
| personally review and approve all general journal entries. Supporting                   |     |    |
| documentation should be reviewed before approving general journal entries. In           |     |    |
| particular, the following items should be investigated:                                 |     |    |
|   |     |    |
| <ul> <li>Entries made to unrelated accounts</li> </ul>                                  |     |    |
| • Entries made to receivables or revenues at or near the close of a                     |     |    |
| period  |     |    |
| • Entries made by persons whose responsibilities are not consistent with                |     |    |
| the accounts being adjusted   |     |    |
| are accounts being adjusted   |     |    |
| Monitor exception reports? Unprocessed transactions should be carefully                 |     |    |
| examined for propriety. This includes revenues, expenses, purchasing and                |     |    |
| payroll transactions.   |     |    |
| <b>Establish a budget?</b> Owner/management should establish an operating budget        |     |    |
| and monitor actual results monthly. Any significant variances should be                 |     |    |
| investigated.   |     |    |
| Establish reasonable performance targets? Setting incentive compensation                |     |    |
| arrangements at unrealistic performance levels may encourage misstatement of            |     |    |
| financial results.  |     |    |
| Perform thorough background checks on all new employees? Call former                    |     |    |
| employers and educational institutions for verification of previous employment          |     |    |
| and education. Beware of "gaps" in employment or educational history.                   |     |    |
| Consider obtaining a credit report (if authorized by the candidate) before              |     |    |
| employment.   |     |    |
| Require uninterrupted vacations for all employees and establish a                       |     |    |
| schedule of rotation of employee responsibilities? More than just good                  |     |    |
| management, rotation of duties provides a strong disincentive to commit fraud.          |     |    |
| In addition, it provides an opportunity to discover fraud that has already              |     |    |
| occurred.   |     |    |
| Remain alert to changes in employee attitudes, behavior and lifestyles?                 |     |    |
| Because of day-to-day contact, management is in the best position to observe            |     |    |
| the unusual – attitudes that are hostile or defensive toward management or the          |     |    |
| entity in general, changes in behavior that are inconsistent with employees'            |     |    |
| normal disposition or lifestyles that are not reasonable based on the employees'        |     |    |
| level of compensation. Matters that may be of particular concern include:               |     |    |
|   |     |    |
| <ul> <li>Indications of dissatisfaction with compensation, lack of promotion</li> </ul> |     |    |
| <ul> <li>Indications of gambling</li> </ul>   |     |    |
| <ul> <li>Indications of drug use or excessive use of alcohol</li> </ul>                 |     |    |
| <ul> <li>Indications of financial distress</li> </ul>                                   |     |    |
| <ul> <li>Indications of infidelity</li> </ul>   |     |    |
| <ul> <li>Indications of serious illness</li> </ul>                                      |     |    |
| <ul> <li>Indications of excessive nervousness</li> </ul>                                |     |    |
| <ul> <li>Indications of severe stress</li> </ul>  |     |    |
|   |     |    |

| Control policy or procedure – Does management -                                | Yes | No |
|--|-----|----|
| Provide employees an opportunity to report the occurrence of fraud or          |     |    |
| other abuse anonymously? Employees are generally more willing to report        |     |    |
| known or suspected fraud if they do not have to identify themselves.           |     |    |
| Management can establish hotlines, "suggestion boxes" or other means to        |     |    |
| enable employees to bring the occurrence of fraud to its attention without     |     |    |
| requiring employees to give their names.                                       |     |    |
| Prohibit anyone taking the entity's records from the entity's offices?         |     |    |
| There is no good reason why any employee should remove the entity's records    |     |    |
| from its offices. Keeping records away from management's oversight is one      |     |    |
| way fraud can be concealed.  |     |    |
| Clearly communicate to employees the behavior that is expected of them?        |     |    |
| Don't depend on common sense. Being specific about what behavior is            |     |    |
| acceptable (and what is not acceptable) will facilitate termination and legal  |     |    |
| action if inappropriate behavior does occur.                                   |     |    |
| Take strong action against employees who commit fraud? Call the police         |     |    |
| or other law enforcement agency and press charges. Failing to do so sends a    |     |    |
| message to other employees that management doesn't take fraud seriously.       |     |    |
| Conduct its own activities on a high ethical level? Employees will follow      |     |    |
| the lead of management, whether that lead is ethical or not. More than what is |     |    |
| said or included in a policy manual, the actions of management establish       |     |    |
| behavioral norms.  |     |    |
| Obtain reasonable fidelity bond coverage? If fraud does occur, insurance       |     |    |
| coverage is the most likely means of recovery of amounts misappropriated.      |     |    |
| The amount of coverage should be reviewed periodically for adequacy.           |     |    |

**Note:** For any potential fraud controls that are marked "NO", consider whether the absence of that control policy or procedure constitutes a significant deficiency or material weakness in internal control that should be reported to management and those charged with governance.

### Annual update to the Understanding of the Entity and Its Environment Including Internal Controls

| Name of entity: | <br> | <br> |
|-----------------|------|------|
|                 |      |      |
| Audit period: _ | <br> | <br> |

At or near the end of the audit period, have discussions with management, those charged with governance and others considered appropriate. Review the original documentation of the entity and its environment, including internal control. Identify through review of prior year documentation and discussions with management, those charged with governance and others, whether any of the following have occurred:

| Activity or change from previous period   | Yes | No |
|---|-----|----|
| Turnover of key personnel   |     |    |
| Turnover of those charged with governance   |     |    |
| Pending or threatened litigation  |     |    |
| Construction of assets  |     |    |
| Leasing of assets   |     |    |
| Substantial loans/refinancing   |     |    |
| Known or suspected fraud/allegations of fraud by others   |     |    |
| Known or suspected illegal acts/noncompliance with laws,  |     |    |
| regulations, contracts or grant provisions  |     |    |
| New IT applications   |     |    |
| New contracts   |     |    |
| New activities  |     |    |
| Corrective action on prior audit findings related to internal control or compliance with laws and regulations |     |    |
| Training/continuing education provided to accounting  |     |    |
| personnel   |     |    |
| New policies or procedures  |     |    |
| Other:  |     |    |

**Note**: For any items marked "YES" attach a memorandum that describes the changes that have occurred, the specific risks identified as a result of those changes, and the planned response to those risks. Alternatively, update earlier documentation and attach new information.
